### Submission Details

The specific provisions of the Proposal my submission relates to are as follows: Security lighting domestic and commercial

I support / oppose these provisions: I support in full

The reason(s) for my submission are: I support any change that improves the dark sky experience, especially needed is policing of the rules. I have a BNB in Manuka Tce and neighbours also have BNBs. The security lighting from one place, which travels hundreds of meters as there is no vegetation, were on for 10 nights/days without being turned off, our guests had their experience of our night sky compromised because of this.

I seek the following  
decision from the  
Mackenzie District  
Council:

Police the rules.

I do or do not wish to be  
heard in support of my submission: I do not

If others make a similar  
submission I would or  
would not be prepared to  
consider presenting a joint case with them at  
any hearing: I would

Additional information  
for this submission:

We claim to be a dark sky reserve and we need to uphold that standard
